Resume

Research Experience

- 2014 – 2017 **PhD: Simulation approach for resource management**, *Grenoble Informatics Laboratory (LIG)*, advised by Denis Trystram and Pierre-François Dutot.
- 2014 (6 mths) **Master's internship: Meta-algorithm design about the multicriteria optimization of a pipeline network**, Géo-Hyd Antea Group, Orléans.
- 2010 – 2014 **Research engineering on two ANR projects about modular and distributed scientific visualization**, Laboratoire d'Informatique Fondamentale d'Orléans.

Teaching Experience

- 2017 **Advanced Algorithms: practical work**, ENSIMAG, Univ. Grenoble Alpes.
- 2015 – 2016 **Introduction to programming and algorithms: Lecture, directed exercises and practical work**, IM²AG, Univ. Grenoble Alpes.
- 2012 – 2014 **Information technology tutoring**, University Institute of Technology of Orléans.

Miscellaneous Experience

- 2017 (3 mths) **Task planification in industrial context in the Overmind project**, Inria, Grenoble.
- 2014, 2016, 2019 **AI contest organization: Topic, network server and client library design**, University Institute of Technology of Orléans.

Educational Background

- 2012 – 2014 **Master's degree in computer science**, *University of Orléans*.
- 2011 – 2012 **Bachelor of Science in computer science**, *Université d'Orléans*.
- 2009 – 2011 **Two-year university degree in information technology**, *University Institute of Technology of Orléans*.

Scientific Publications

- 2017 Pierre-François Dutot, Yiannis Georgiou, David Glessner, Laurent Lefèvre, Millian Poquet, and Issam Rais, **Towards Energy Budget Control in HPC**, In *17th IEEE/ACM International Symposium on Cluster, Cloud and Grid Computing (CCGrid'2017)*.
- 2016 Pierre-François Dutot, Michael Mercier, Millian Poquet, and Olivier Richard, **Batsim: a Realistic Language-Independent Resources and Jobs Management Systems Simulator**, In *20th Workshop on Job Scheduling Strategies for Parallel Processing (JSSPP'2016)*.
- 2015 Pierre-François Dutot, Millian Poquet, and Denis Trystram, **Communication models insights meet simulations**, In *13th International Workshop on Algorithms, Models and Tools for Parallel Computing on Heterogeneous Platforms (HeteroPar'2015)*.
- 2014 Sébastien Limet, Millian Poquet, and Sophie Robert, **Modulight: A framework for efficient dynamic interactive scientific visualization**, In *Proceedings of the International Conference on Computational Science (ICCS'2014)*.

Specific IT Skills

Languages D, Go, Advanced C++, Python, C, bash, Java, Prolog, Erlang...

Keywords Software architecture, reproducibility, modularity, distributed systems...
